## WELCOME

Welcome to the Community of Practice, a place for advocates and faculty of law, human rights, and patient care courses to share materials and resources. Additionally, we invite health providers and health managers, NGO activists, students and other stakeholders in health care service delivery to develop a network of strong practices regarding human rights in patient care. The Community of Practice has 3 main sections: [Teaching Law and Health](#), [Trainings on Human Rights in Patient Care](#) and [Media Tools](#). We invite you to visit all of the sections, to use the materials, and to provide comment and feedback as we continue to expand the Community of Practice.

We believe that having enough knowledge on their own rights would be the first step to defend against ignorance or violations of those rights. The brochure also brings important quotations of relevant legal acts and other documents." At the bottom of the content area, there is a blue button labeled "Download".
